

R.O.S.E.

COMMUNICATION & THERAPY SERVICES

Reaching Outcomes through Strength & Empowerment

Every journey begins with hope. Every bloom begins with R.O.S.E.

J'Vohnne Rosario

M.S. · FOUNDER &
SPEECH-LANGUAGE
PATHOLOGIST

WHO WE ARE

A therapy home that is clinically grounded and deeply human.

Founder-led speech-language therapy for children, adults, and families. Compassionate, individualized, evidence-based care. Sessions are by appointment. Chicago-area families may ask about in-person options; teletherapy is available when it serves the plan.

Who we walk with, and how.

Who we serve

- Infants and toddlers, with parent coaching in everyday routines
- Preschool, school-age children, and adolescents
- Adults after stroke, brain injury, Parkinson's disease, dementia-related communication change, and other neurological conditions
- Families, caregivers, and referral partners who need a warm handoff—not a cold referral

Services

Speech-Language Therapy

Individualized evaluation and treatment for speech sounds, language, voice, and functional communication.

Early Intervention

Support for infants and toddlers, with parent coaching that weaves communication into everyday routines.

AAC Support

Augmentative and alternative communication so every voice can be heard—devices, pictures, signs, and beyond.

Pediatric & Adult Services

How care is offered

Strength-based care

We focus on what people can do, and support growth from there.

Individualized therapy

Plans reflect each person's communication, lifestyle, and goals—not a package.

Family-centered

Caregivers are on the team. Skills are meant to live in everyday routines.

Evidence-based

Work is guided by research, clinical expertise, and what matters to this person.

How to begin

- Call or text 773-457-1204
- Email rosecommunicationandtherapy@gmail.com
- Start online at www.rosecommunicationandtherapyservices.com/start
- No doctor's referral is required to start a conversation

For partners

- Call or email J'Vohnne with the family's permission: 773-457-1204
- Invite the family to complete Client Intake on the website
- A signed HIPAA release lets R.O.S.E. coordinate with your team

Care across the lifespan, from first words through school years to adult neurological rehabilitation.

- School work is collaboration, not a school-based contract

Fluency

Support for stuttering and cluttering that builds confidence, ease, and self-advocacy.

Consultation

Professional support for parents, caregivers, educators, and members of a client's support team. Brief consultation is \$25 per 15 minutes.

What we will not do

- There is no walk-in clinic. Mail may be sent to the P.O. Box. Care is scheduled.
- Therapy session rates are named before evaluation or therapy begins—not published as a menu.
- A conversation is not a commitment, a screening, or a quote of unpublished session rates.

Published fees

- Brief telephone or virtual consultation is \$25 per 15 minutes. Consultation fees are private pay and are not billable to health insurance.
- Late cancellation and no-show fees are \$25 unless waived, when less than 24-hour notice is given.
- Educational and IEP consultation is separately billable. Those fees are named before that work whenever reasonably possible.

Every journey begins with hope. Every bloom begins with R.O.S.E.
